SUBJECT: Plastic Pipe Hangers – UV Protection

DATE: August 2017

PAGE: 1 of 1

While the black color of our products helps to protect our product from UV rays, Sioux Chief does not recommend that any of our plastic pipe hangers be used for permanent, outdoor, direct-sunlight applications. UV rays will degrade all types of plastic materials over time, causing them to become brittle.

While some manufacturers offer products that contain UV inhibitors, we do not believe ANY amount of UV inhibitor can offer a hanger a "lifetime" of the system warranty such as we do with much of our manufactured products.

The information contained herein is believed to be reliable, but no representations, guarantees, or warranties of any kind are made as to its accuracy, suitability for particular applications or the results to be attained therefrom. Before using, the user shall determine suitability of the information for the user's intended use and shall assume all risk and liability in connection therewith. Installation shall comply with local codes where applicable. **To The Extent Permitted By Law, Sioux Chief Disclaims All Warranties, Express Or Implied, Including But Not Limited To Any Implied Warranties Of Merchantability or of Fitness For A Particular Purpose.**
